Optional Park Services	Further information available on request

Smart & sustainable

WE USE THE EXCESS ENERGY FROM YOUR COLD STORAGE, TO HEAT YOUR NEIGHBOUR'S OVENS

A green energy platform delivers cost savings through a mixture of power generating technologies

Clustered waste energy outputs provide alternative usage solutions

Recycling all used energy to meet Net Zero target by 2030

Sustainability initiatives built on a first-class specification

PV panels on each building feed into the central Energy Centre

Heating and cooling loop available, balancing power across the park

The SmartParc SEGRO Derby team will support customers by applying connected thinking to help ensure excellent environmental performance and efficiency gains across:

ENERGY

Reducing energy usage, recycling and balancing energy around the park whilst leveraging sustainable forms of efficient generation

WATER

Reducing water usage through optimisation, water harvesting, treatment, and recycling

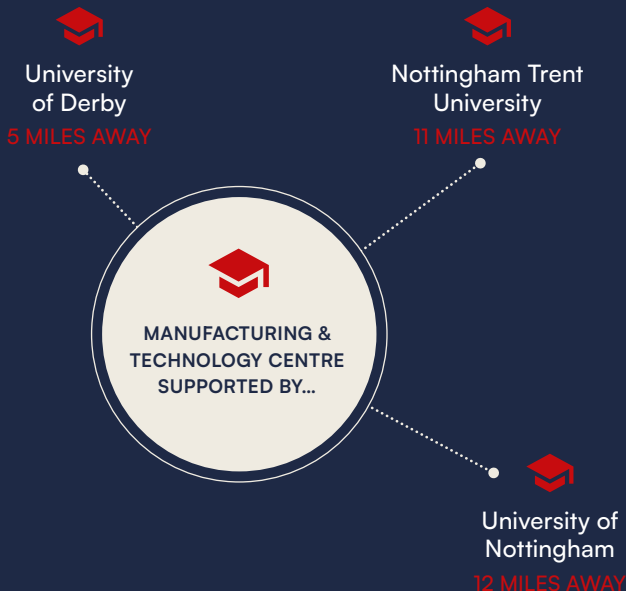

TRANSPORT

Reducing food miles and converting to sustainable transport alternatives

WASTE

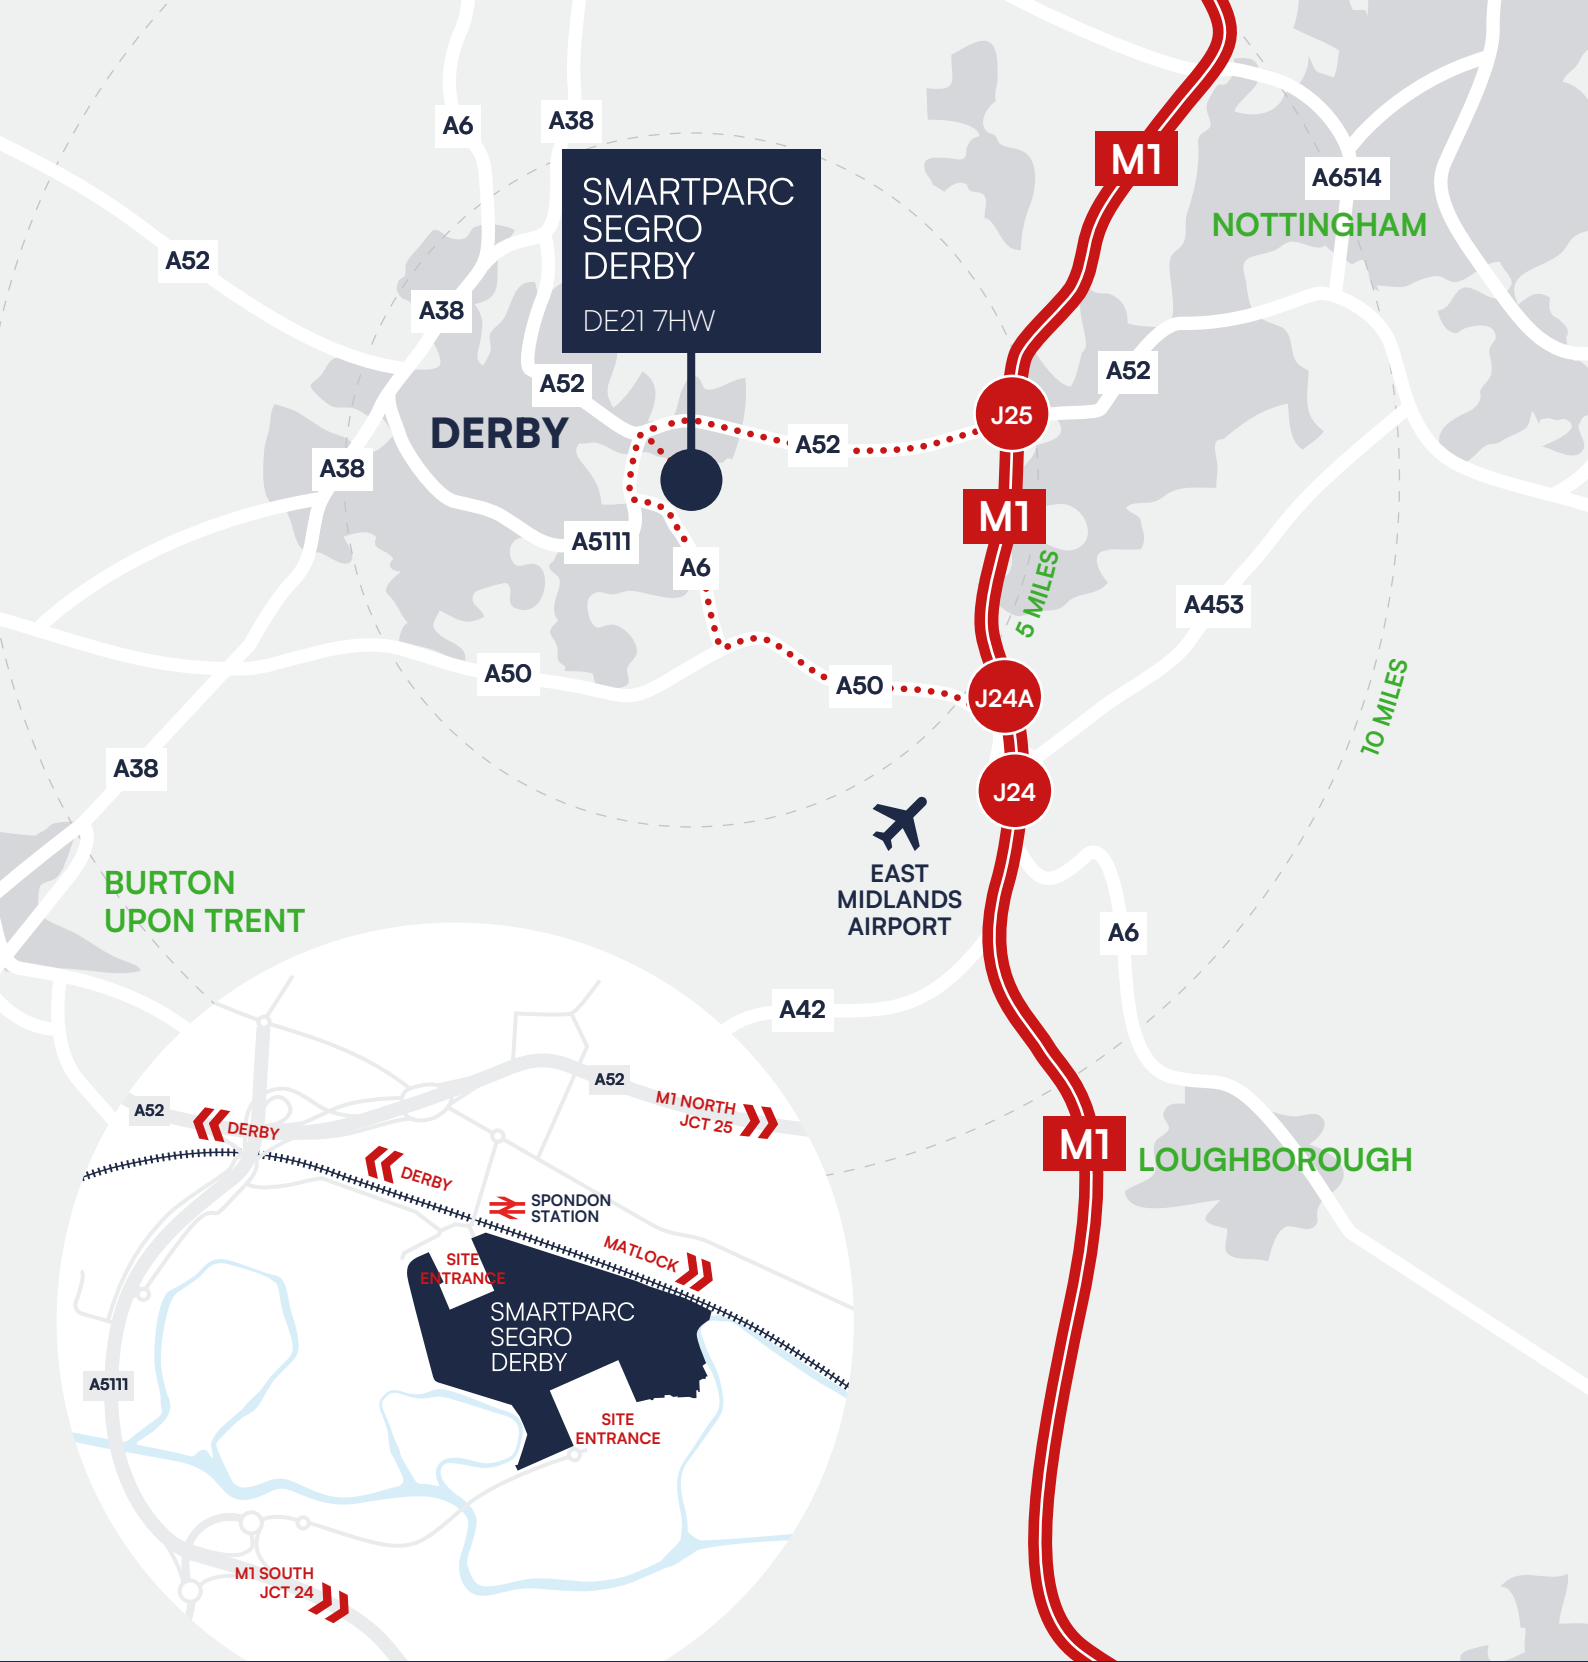

Proactive management of waste reduces impact on the environment

Innovation on the park

Included at SmartParc SEGRO Derby, will be a Food Manufacturing and Technology Centre:

- A hub for food industry research, training, career development, and home to SMEs looking to excel with help from industry experts and business collaboration
- 750 sq ft to 30,000 sq ft (100,000 sq ft in total)
- Shared facilities and canteen
- Product development rooms
- Office space and meeting rooms to rent
- Central services for chilled and ambient units

SEGRO is a UK Real Estate Investment Trust (REIT), listed on the London Stock Exchange and Euronext Paris, and is a leading owner, manager and developer of modern warehouses and industrial property. It owns or manages 99 million square metres of space (106 million square feet) valued at £20.9 billion serving customers from a wide range of industry sectors. Its properties are located in and around major cities and at key transportation hubs in the UK and in seven other European countries. For over 100 years SEGRO has been creating the space that enables extraordinary things to happen. From modern big box warehouses, used primarily for regional, national and international distribution hubs, to urban warehousing located close to major population centres and business districts, it provides high-quality assets that allow its customers to thrive. A commitment to be a force for societal and environmental good is integral to SEGRO's purpose and strategy. Its Responsible SEGRO framework focuses on three long-term priorities where the company believes it can make the greatest impact: Championing Low-Carbon Growth, Investing in Local Communities and Environments and Nurturing Talent. Striving for the highest standards of innovation, sustainable business practices and enabling economic and societal prosperity underpins SEGRO's ambition to be the best property company. June 2024.
