

# Process and Timescales

## Having your say

You can have your say in the following ways:

Complete a paper form at this event

Write to the following address:  
EMG2  
PO Box 11382  
Nottingham NG2 9AU

Complete a reply form on the project website:  
[segro.com/slpemg2](http://segro.com/slpemg2)

Please send all replies by 17 March 2025

## Nationally Significant Project Authorisation Process

The Government has directed that the proposals for the EMG2 Main Site south of the Airport should be treated as a project of national significance for which development consent is required from the Secretary of State. The Highway Works will also be determined as part of that process.

In regards to the EMG1 Works, these will be assessed by way of a Material Change Application to the previous Development Consent Order for EMG1.

Notwithstanding the two separate authorisations required, the project is running in tandem and all the proposals are being assessed collectively to ensure all inter-related effects are assessed.

In view of the above, rather than planning applications being made for the proposals to the local authority, applications will be made to the Planning Inspectorate for the necessary approvals.

## Timescales

The following timescales are envisaged:
