SEGRO

A REINVENTION THAT EXCEEDS ALL EXPECTATIONS

THE VISION

SEGRO Centre Kentish Town will be the ideal industrial space for innovative businesses looking for a space that matches their ambition. Modern, vibrant, and meeting the highest sustainability standards, its 21,910 sq ft of space is close to central London, and flexible enough to allow for adaptation to a wide range of different business needs.

SEGRO Centre Kentish Town will be ready for occupation from Q2 2025.

MAKE LONDON YOUR OWN

THE LOCATION

More than just a cutting-edge, highly sustainable warehouse space, SEGRO Centre Kentish Town's Zone 2 location offers seamless links to Camden, central London, and the rest of the capital, unlocking true industrial agility on a rare scale.

INNOVATING TO MAKE AN IMPACT ON OUR ENVIRONMENT

SEGRO Centre Kentish Town is designed to facilitate more efficient, more sustainable operations, as well as the adoption of greener transportation.

INNOVATIVE SUSTAINABLE MEASURES

SEGRO Centre Kentish Town will set a benchmark for sustainable and environmentally friendly space of this type in London by incorporating modern innovations such as LED lighting (60,000 hours of life), air purifying paint, electric car charging points and PV panels.

BENCHMARK ENVIRONMENTAL STANDARDS

SEGRO Centre Kentish Town will achieve: EPC A+ / Net Carbon Zero / BREEAM 'Outstanding'.

RENEWABLE ENERGY

Photovoltaic panels that generate electricity from the sun will produce enough renewable electricity to power the unit – the equivalent of 9.5 average households each day or saving the amount of carbon saved by 306 new trees.

REDUCING AIR POLLUTION

External green living walls will extract harmful gases from the atmosphere, such as Nitrogen Dioxide, allowing for cleaner air to circulate.

SUPPORTING TRANSPORT ELECTRIFICATION

With the future of transport changing, SEGRO Centre Kentish Town will provide state-of-the-art infrastructure to support electric vehicle charging points and encourage the use of electric fleets.

RAINWATER HARVESTING

Modern rainwater harvesting technology will be used to collect and supply water to facilities such as the toilets, to act as a natural and renewable source and reduce the site's impact on Camden's water supplies.

WALKING AND CYCLING TO WORK

London is one of the world's best cities for active commutes, and modern facilities, cycle racks and a locker room will be installed to encourage employees to cycle, run and walk to work.

EMPLOYEE WELLBEING

SEGRO is a member of the International WELL Building Institute and a founding member of the UK Green Building Council. As such, we've put the health and wellness of our customers, and their teams, at the heart of this building's design and refurbishment.

Considerable thought has gone into the site's wellness facilities and how they create a pleasant working environment. Modern facilities including showers and changing rooms will be available for employee use. Living green walls externally will improve air quality and promote wellbeing, while intelligent heating and cooling systems provide optimal comfort.

HAPPILY EVER AFTERCARE

SEGRO AS A LANDLORD

By working closely with local stakeholders, SEGRO enables businesses to thrive. Future-proofing new buildings and providing ongoing support and access to training and recruitment opportunities meets the changing needs of customers. And our personal approach ensures we're always asking questions to better understand those needs.

Customer service

All customers benefit from a dedicated Asset Management and Property Management team, a relationship that adds real value to your business. SEGRO is committed to providing on-going support for customers through high-quality service standards, flexibility and innovative property solutions.

Employment & training

SEGRO's Partnership Development Team works with customers to understand their recruitment needs and, through a network of partners, can help customers to access a local talented workforce as well as training providers.
